PROFESSIONAL SUMMARY

Laravel Developer with 2.7+ years of experience in building scalable web applications, RESTful APIs, and database-driven systems. Strong expertise in PHP, Laravel, MySQL, and performance optimization. Experienced in delivering production-ready solutions in collaborative team environments.

PROFESSIONAL EXPERIENCE

Software Engineer

E2logy Software Solutions

Oct 2025 – Present

Ahmedabad, India

- Working on **Happy Guest**, a short-term rental automation platform that streamlines guest onboarding, documentation, and upsell workflows.
- Integrated **Intercom chatbot and Help Center**, enabling real-time customer support and self-service knowledge base.
- Improved user support efficiency and reduced manual intervention for hosts through automation.

Junior Software Developer

Netclues India Pvt. Ltd.

Aug 2023 – Oct 2025

Ahmedabad, India

- Developed and maintained multiple web applications and custom modules using **Laravel**.
- Designed and integrated **RESTful APIs** for third-party services.
- Optimized database queries, improving application performance and reducing load time.
- Collaborated with UI/UX teams to implement responsive designs and enhance user experience.
- Participated in code reviews and followed best practices to maintain a clean, scalable codebase.

Key Projects:

- **Cayman Institute of Technology**
 - Built Laravel + React.js CMS with admin panel and role-based access
 - Implemented APIs and authentication
 - Designed MySQL database schema
- **Craftman Auto** – Built a Laravel-based CMS with **vehicle management and appointment booking**, integrated with **Google Calendar**.

Software Trainee

Netclues India Pvt. Ltd.

Feb 2023 – Jul 2023

Ahmedabad, India

- Gained hands-on experience with Laravel application development.
- Assisted in bug fixing, feature enhancements, and database operations.
